We are very pleased to invite you to the Workshop Distributed Intelligent Systems and Technologies. It will be held 1-4 July 2013, in St. Petersburg, Russia at the St. Petersburg State Polytechnical University. Nowadays the concept, principals and architecture of Distributed Intelligent Systems and Technologies are spread all over the spheres of intelligent control systems. It can be used in computer networks, technological process, monitoring systems, and daily life.

We would like to inform you that due to numerous author requests we decided to extend the submission deadline for contributions to the 6th Distributed Intelligent Systems and Technologies workshop. New submission dates are the following:

- Abstract submission: May 20th, 2013
- Full paper submission: June 15th, 2013

You can submit abstract for oral presentation and full paper by e-mail dist@dis.spbstu.ru.

All participants will be able to take part in a workshop with a first rate Scientific Programme, covered topics of which are listed below:

- Artificial Intelligence Theory
- Autonomie and Mobile Robots
- Cognitive Agents and Multiagent Systems
- Cognitive Robots and Multi-Robot Systems
- Distributed Intelligent Systems and Networking
- Intelligent Automation and Control Technique
- Intelligent Control and Monitoring Systems
- Intelligent Transportation Systems
- Knowledge Engineering and Knowledge Management
- Machine Learning Technique
- Machine Vision Technique
- Neuroinformatics and Neural Networks
- Ontology-Based Knowledge Representation, Reasoning and Planning
- Safety and Security Systems for Home and Living

We are looking forward to seeing you in July 2013!

Sincerely,

Prof. Vyacheslav P. Shkodyrev
Workshop Co-Chair

Prof. Ludger Overmeyer
Workshop Co-Chair
